## Sanitized - Approved For Release : CIA-RDP62S00346A000100040016361

2 August 1957

MEMORANDUM TO:

Major Mickelson, AFCIN

25X1A9a

Chairman, IAC Ad Hoc Committee on Exchanges

- 1. As agreed in the discussions on evaluating the intelligence results of East West contacts, CD/OO has prepared a machine run of reports emanating from those contacts. The intention was, as you remember, that the Offices involved would look at the report numbers and indicate to the best of their ability which ones would have been given a rating of "l. Fills a priority need" or "2. Of considerable value" had they been evaluated. This should be accomplished by 10 September in preparation for full scale evaluation of the exchange Program.
- 2. The machine run is divided into three catagories, (a) Exchanges, (b) Conferences, (c) Non-official groups and individuals. The key to the machine run is as follows:
  - a. First column indicates whether the report is an 00-B or 00-A.
  - b. Second column is the report number.
  - e. Third column indicates the broad catagory of the subject matter, i.e., SCO - Scientifie; NUC -Muclear; BIO - Biographic; etc.
  - d. Fourth column is the area involved, i.e., EER -USSR and Eastern European Satellites; WEU -Western Europe; etc.
  - e. Fifth column indicates the evaluation given to the report by some element of the intelligence community. The numbers correspond to the two appropriate columns in the attached evaluation blank, 1.e., 33 means of value, possibly true
  - f. The sixth column indicates the office which performed the evaluation.
  - g. Seventh column is the 00/C case number.
  - h. The last three columns are the date on which the report was released.

-2-

3. The results should be forwarded to Secretary of the IAC Ad Hoe Committee on Exchanges. If there are any questions, please call me on Extension 3825.
